### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 12-16.

### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: In the applicants' Remarks filed on 09/12/2006, the applicants have persuasively argued that the Huang reference (Huang et al. *Advanced Materials* Vol. 13, pg. 113 (2001)) uses pure argon as the purge gas whereas the applicants' invention uses a mixture of argon gas and oxygen. A review of this Huang et al. article revealed that the Huang et al. process uses argon with no mention of oxygen being mixed with it (please see pg. 113, col. 2, 2<sup>nd</sup> full paragraph and the *Experimental* section set forth on pg. 116 in this Huang et al. article) whereas the applicants' independent claim 1 calls for using a mixture of oxygen gas and argon gas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
